Aspiring Data Scientist

linkdein.com/in/ayesha
Islamabad, Pakistan

SUMMARY

Motivated ADP IT student at Riphah International University aspiring to become a Data Scientist. Passionate about machine learning, data analysis, and building practical predictive applications. Hands-on experience with Python, data visualization, and developing interactive web apps using Streamlit. Eager to apply data-driven solutions to real-world problems and continuously learn new technologies.

PROJECTS

Customer Churn Prediction App — Live

- Built an end-to-end machine learning app to predict customer churn using classification models, achieving 85% accuracy on test data.
- Developed using Python, Scikit-learn, Pandas for data preprocessing and modeling; Streamlit for interactive web interface.
- Deployed on Streamlit Cloud with user-friendly dashboard for input features and prediction results.
